

## Winter Comes    Music: MaxB Lyrics: Spacetrucker and MaxB

I remember     - days of summer  
your smile       - in the sun  
Winter comes   - it brings on changes  
And I             - I'm walking alone

---

In the days             - we spent together  
Life was easier       - was like a song  
But music changes - like the weather  
Winter comes         - and it finds me alone

---

Snow is falling - I'm, alone  
Snow is falling - it's all done  
Snow is falling - and I  
I'm calling         - but you are gone

---

As I walk               - empty places  
The world is quiet - covered with snow  
My life is full         - of empty pages  
Ink is frozen           - it can't flow

Snow is falling - I'm, alone  
Snow is falling - it's all done  
Snow is falling - and I  
I'm calling         - but you are gone
