

Without this - no song      Text o Musik: MaxB

On the first day      - we met  
I can assure you      - I felt blue  
You were all          - I could dream of  
finally my dreams - came through

You                    - are                    - gorgeous  
is there something - I can do  
To make you            - stay  
I will never            - let you go

You gave me          - no warning  
You told me          - you love me  
And I                    - I was happy  
I was as happy      - as someone can be, yes  
I was as happy      - as someone can be

On the second day - you told me  
you had found      - someone new  
You said              - you no longer loved me  
you said              - please set me free

I burst into tears    - cried all day long  
but I soon            - realized  
without this         - there would be no song

I cried out          - in anger  
I cried out          - my fear  
I cried out          - the sorrow  
now                    - you're not here  
now                    - you're not here
