You're never alone

Text o Musik: Max Backström 2013-01-18

- Vers 1:

You travel to foreign places

You think you're far from home

you feel you miss all the friendship

you have back home

- Vers 2:

You loose grip - of reality

and you have nowhere to go

Then it's time to realize,

You're not alone

- Ref:

It's the same old song - better join and sing along

It's the same old song - it goes on and on

- Vers 3:

You hear music from a bar

you can tell, it's not that far

You go there, and listen

Now you're a part of it all

- Ref:

It's the same old song - better join and sing along

It's the same old song - it goes on and on

- Stick:

It's time to realize - you have friends

you have friends where ever you are

You are never - ever alone.

- Vers 4:

When-you're-back, to-the-place-you-feel-is-home

you feel-content, with the things, that is going on

Then reflect over the time, when we had somethin going on

You have always been here

- Brygga:

It doesn't matter where you think you are

No matter if you think you're near or far,

you are never - ever alone.

- Ref (akapella kanske tonartshöjning):

It's the same old song - better join and sing along

It's the same old song - that-goes on and on

- Ref (med instrument och körer och allt):

It's the same old song - better join and sing along

Yes, it's the same old song - that-goes on and on

It's the same old song - better join and sing along

Yes, it's the same old song - that-goes on and on
